DETAILED ACTION

Amendment

1. Acknowledgement is made of Amendment filed May 26, 2005.

Allowable Subject Matter

2. Claims 3-7 and 9-34 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The record of prior art fails to teach a trading card communicating with a recording and/or reproducing unit to receive messages from a subject printed on the card, the trading card including a data storage unit receiving a recording command from the recording and/or reproducing unit to record and store the subject-related data stored in the recording and/or reproducing unit from the subject; and a housing unit containing and protecting the data storage unit, wherein the housing unit comprises a serial number identifying the trading card, and the messages are based on recorded user-related information and are built by implementing the user-related data into the subject-related data.

Yamashina teaches a trading card communicating with recording and/or reproducing units to receive messages from a subject printed on the trading card, the trading card comprising a data storage unit storing subject-related data of the subject printed on the trading card, wherein the data storage unit reproduces and transmits the subject-related data to the recording and/or reproducing units in the form of an optical or radio signal to simultaneously reproduce the subject-related data of the subject printed on the trading card in the recording and/or reproducing units.

Art Unit: 2876

Moreno teaches a recording and/or reproducing units record/writing the subject-related data stored in the recording and/or reproducing units onto the trading/payment card.

Pace teaches a trading card system having a floppy disk, wherein the housing has a unique serial number to identify the floppy disk.

However, Yamashina, Moreno, and Pace, taken alone or in combination thereof, fails to specifically teach a trading card having a housing unit containing and protecting the data storage unit, wherein the housing unit comprises a serial number identifying the trading card, and the messages are based on recorded user-related information and are built by implementing the user-related data into the subject-related data.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
